Meeting with the Governor

Michigan's Governor, Rick Snyder, spent the day in Northeast Michigan traveling to Town Hall Meetings, on August 20th, 2012. His visit emphasized the need for public and private funding for Economic Development with the ultimate goal of job creation. Tom Moran, President and Founder and Gerald Ganske, General Manager of MIW were hosts at one of the stops on the Governor's tour. "It was a pleasure to talk with the Governor about the progressive plan we have for our region of the state. We share the same interests and goals. We both want to put people to work in the State of Michigan", stated Gerald Ganske. Those comments were echoed by Tom Moran. "Our driving force is servicing the communities and employees where we have facilities in Northern Michigan. We continue to look for ways to improve and expand our workforce".

Bronze Chairman's Award

The teaming agreement established between [BAE Systems](#) and Moran Iron Works has been recognized by receiving the Bronze Chairman Award in the Innovation Category. This yearly BAE Systems competition received 350 entries with only 65 receiving awards.

The teaming agreement was announced in April of 2012, bringing together a collaboration in the pursuit of plate steel fabrication throughout the northern and southern regions of central and eastern North America.

Moran Iron Works will be CLOSED Monday, September 4th in observation of Labor Day.

We apologize for any inconvenience.

Upcoming Events

Power Gen

Orlando, Florida

December 11th-13th, 2012

The Estimating Department

Multiple coal fire power plant projects are on the horizon at Moran Iron Works.

Jill Klein, the Lead Estimator working on the assignments, has submitted the final numbers on:

- A fabrication project that has a schedule to begin in the fall of this year and complete barging during the spring of 2013.
- A project with a total weight of 3,250 ton. With multiple delivery dates, this Michigan Made endeavor would extend to the Fall of 2014.

Be a yardstick of quality. Some people aren't used to an environment where excellence is expected.

Steve Jobs

Our Community

The D.A.D.S. Club (Dedicated Athletes Deserve Support) of Cheboygan, spent many hours fundraising and collecting donations to improve the quality of the football field for the Cheboygan Chiefs High School football team.

Their impressive efforts along with Moran Iron Works donated time and material, was able to bring to life this archway at the entrance of the field.

Employee Corner Featuring...

Daniel Brcic

Daniel joined the MIW Team back in January of this year and successfully completed the Moran's Iron One Specialized Training program. Daniel brings a significant contribution to the company by further developing his exceptional welding skills with the help of Keith Raymond and the mentoring program. Daniel grew up here in the Northeast Michigan area and we look forward to Daniels continued successes with the MIW Team.

What's Up North -

The team at MIW North continues to build on the company principal "Execution and Productivity". They work to not confuse effort with results. The CWI leadership, mentoring, and human resource teams have provided excellent tools for welder training. There are four (4) skill levels of progression that all new welders are trained with. The newest incoming group at MIW North will focus on Skill Levels 1 and 2 this fall. Additionally, we have just completed a great new experience with college summer interns. We are pleased to report, they were all asked to return for another internship or further employment in the future.
