## UPDATE- BAGHOUSE PROJECT

Moran Iron Works fabrication of baghouses is in mid stride, with 9 of 24 of these massive units truck shipped down the high wire corridor to our deep water port. Upon arrival they are test fitted together and inspected by a team of Certified Welding Inspectors (CWI).

The mere weight of this project, with each module weighing at upwards of 140, 000 to 160,000 pounds, has required MIW to install a new hydraulic lifting system in a designated bay in the shop area. This improvement to enhance safety and stability during the truck loading process has become a vital tool in progressive performance for MIW, giving us an edge with advanced processes and leading edge technologies.

The completion date of the 24 baghouses in Phase II is the summer of 2013, with eight more baghouses in Phase III scheduled to commence in the second quarter of 2013.

## MIW LOGISTICS DEPARTMENT

The last barge pulled away from the dock of our deep water port during the third week of October, officially ending our barge shipping season for 2012. This year we set a new standard with 11 barge shipments throughout the Great Lakes region. This logistics resource sets us apart from our competition with ease of delivery and large modular sizing, eliminating costly onsite fabrications.

We eagerly await the commencement of our barging season in the Spring 2013.

## Upcoming Events

### Power Gen

December 11th-16th  
Orlando, Florida

## EMPLOYEE CORNER

### JOHN FLYNN

A Cheboygan native, John Flynn began his career with Moran Iron Works North in the fall of 2011. “ John came to us as an experienced welder who loves the knowledge based environment of MIW, he is a dedicated team member which the organization is fortunate to have.”, stated Charlie Nyhus, Manager of MIW North.

John, whom many around the shop area refer to as a “work horse”, joined the MIW team with almost a decade of experience. He quickly adapted to the environment, and with his talented craftsmanship, has become an instant standout on the team.

An avid sportsman, he spends most of his free time enjoying the splendors of Northern Michigan.

“What’s too tough for most is just right for us.”

Charlie Nyhus, MIW North

## MORAN IRON WORKS “IRON-UP” PROGRAM

We are progressing on our work place organization program “Iron Up” to continuously improve safety, quality, and morale which ultimately improves productivity. The Moran Iron Works team strives to improve each element of quality, process, and training in order to support our community and long term customer confidence. As the Moran Iron Works family grows, we realize that our customers are like us. We both want to feel secure and confident in every activity and decision made by this team. We intend to work with conviction, and lean our shoulder into the business to create the very best value for our customers.

## MORAN IRON WORKS JOB FAIR

Moran Iron Works, in cooperation with [Michigan Works!](http://MichiganWorks.com) and Pure Michigan Talent Connect– [MiTalent.org](http://MiTalent.org), is holding a career fair in Cheboygan, Michigan on November 7th, 2012. Michigan Works! Staff will be on hand, between the hours of 10 am and 4 pm to organize the event and screen potential welders, fabricators and general laborers.
