MIW FLEET ADDITION

A seemingly endless parade of semi-trucks rolled to a stop at the deep water port in Rogers City this month, loaded with pieces of Moran Iron Work's newest investment. A Manitowoc 16,000 Crawler Crane.

The Manitowoc is currently configured to lift 881,900 pounds, but has the capability of lifting greater weights. This fleet addition will allow for greater ease in the handling of larger components at the deep water port.

UPDATE- SCR DUCTWORK PROJECT

It has been a year in the making, with a start date of April 2012, we are now in the final stages of completion for the 1,350 Ton SCR ductwork project.

With 94% of the overall project complete we look forward to the spring barging season, with an on time delivery to our customer.

"The work on our Great Lakes barging is well underway.", stated Carl Campbell, Project Manager for the SCR Ductwork Project.

- Maximum lift Capacity of 440 tons
- Maximum Boom Length of 282 feet
- Maximum Jib Length of 150 feet

EMPLOYEE CORNER- JODIE BUCHANAN

Jodie Buchanan joined the MIW team in 2012 as a general welder and has been working to excel in his craft everyday since. He has since graduated through the Iron One Institute, receiving multiple welding certifications and has promoted his abilities from General Welder to Certified Fabricator.

Jodie grew up on the river in Cheboygan, Michigan. He thoroughly enjoys his growing family as they have recently brought their son Francis into this world in November of 2012. Jodie enjoys Great Lakes, water skiing, scuba diving along with many other projects.

We are fortunate to have Jodie on our team.

WHAT'S UP- NORTH

The MIW North Team continually works to support Moran's diversity in products

"We are in the final stages of completion of 112 access doors that are expected to complete shipment in the month of April. This project allowed the MIW North employees to strengthen their abilities in areas such as specialized painting, and fine metal welding." MIW North Production Manager, Tom Vonlinsowe shared.
