Project Update-

Moran Iron Works has been hard at work completing an average of 97 ton a week on just this one project.

“The amount of quality product the MIW team was able to fabricate, modularize, and test fit in 18 weeks is a testament to our experience, skill set, and company culture”, stated project manager Bill Hartig.

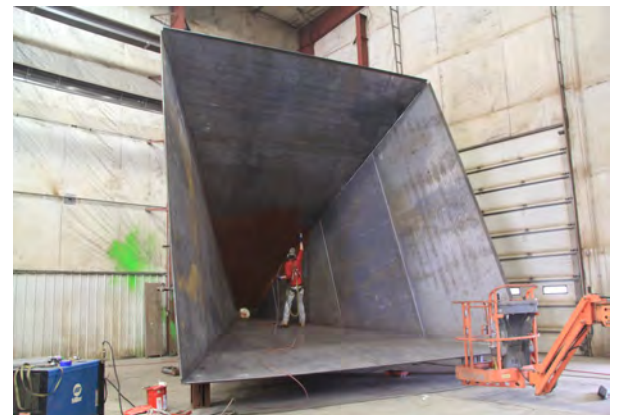

The end of the 2013 barge shipping season has produced three full barge loads of modularized platework in route to the customer's site. 1,700 Ton of ductwork was completed in just 18 weeks from detailing to delivery!

Phase Three of our Baghouse Project Begins...

Fabrication has begun on the last phase of a three phase baghouse project.

- Four Year Duration, 2010-2014
- Almost 9 Million Pounds of Materials
- Over 20 Million Dollar Contract Value
- (42) complete Pulse Jet Fabric Filter (PJFF) Modules

"It's the job that's never started that takes longest to finish."

- J. R. R. Tolkien

See You There...

Employee Corner–

Kurt Zinke

Moran Iron Works is excited to present the newest member of our MIW family, Kurt Zinke.

Kurt is excelling in the role of Maintenance Manager, where he is responsible for the everyday mechanical needs of MIW & MIW North.

. Kurt lives in Rogers City where he graduated from High School in 1992. Bowling and exercising are a couple thing's he likes to do in his spare time- when he is not fishing.

What's Up North...

Moran Iron Works North has completed our first group of all stainless steel Access Doors for Frame 5 Turbines. This stainless steel construction will lower costs for our customer over the long run.

Shipping is scheduled to start this week.

Acquisition of Additional Facility

MIW is proud to announce the acquisition of an additional facility in the Onaway, MI area.

The addition of this facility brings Moran Iron Works' manufacturing area to almost 150,000 sq. feet, this does not include the facilities additional 30,000 square foot office area .

“With the warehouses and large office area, the building could serve as storage and more manufacturing space for our welded steel fabrications”, Public Relations Manager Marilyn Kapp said. “It also could house a trade school to train employees for Moran and other businesses in the area,” stated Kapp.
